Part I: Scope of EPC

The Export-Import Bank of India (Exim Bank or the Bank), on behalf of the Government of India (GOI) has approved financing of a project out of a Line of Credit extended to the Government of Maldives for the Greater Male' Connectivity – Male' to Thilafushi Link Project in the Republic of Maldives for which Exim Bank now seeks applications for prequalification from eligible Indian entities. Refer Part II ITA 4 for eligibility provisions.

The Ministry of National Planning, Housing and Infrastructure (MNPHI) of the Republic of Maldives is the Implementing Agency for the project. The agency has appointed Arup Ltd (Arup) as the consultant to provide assistance in delivering the project.

A] Background and Major Components of the Project

The Republic of Maldives is made up of 1,192 small coral islands in an area of 298km², spreading 675km from north to south and 130km from east to west. Out of the total population of Maldives, one third is concentrated in Male' Island, the capital city of Maldives. The islands are connected by boats, ferries and airplanes as appropriate.

The Male' urban conurbation has expanded by reclamation in nearby islands, namely, Hulhumale', Hulhule, Villingili and Thilafushi. The majority of the Maldivian Government institution buildings and commercial functions including International Port are situated on Male' Island. Male' is heavily congested and there is little room for future expansion for development. The existing international port at Male' Island has only one berth and exceeds its handling capacity and ships have to queue inside Northern Male' Atoll for unloading and loading. All goods are classified at the port and then distributed to other islands by small vessels.

The transport connectivity between nearby islands and Male' is a major challenge because the sea transportation is often interrupted during the monsoon season starting from May to December. Ensuring a stable and safe transportation means connecting the nearby islands to Male' is essential for the Maldivian people.

In 2013, the Government of Maldives initiated developing the Master Plan which includes reclamation and land use plan of nearby islands of Male'. In this connection, the Greater Male' Connectivity – Male' to Thilafushi Link Project which connects these islands by road bridges, has been necessitated. The Government has planned to expand the road connectivity up to Thilafushi Island which covers the Greater Male' Region ranging from north of Hulhumale Island to Thilafushi Island. From east to west the new road will connect islands of Male', Villingili, Gulhifalhu and Thilafushi. The road alignment developed by the Maldivian Government runs along the southern periphery of these islands, with additional reclamation as necessary.

Details of the islands are as follows:

- 1) The Male' Island has been overpopulated and the existing roads are congested by cars and motorbikes. Motorbikes parked at roadsides hinder smooth traffic flow. The Boduthakurufaanu Magu, the southern periphery road connecting with the China Maldives Friendship Bridge is 14m wide to accommodate four (4) traffic lanes. At the western end of the island, where the Project road is to be connected, the Male' Industrial Park is planned.
- 2) The Villingili Island east of Male' has about 7,000 residents who are primarily work in the fishing industry. On this island, mainly only bicycles and electric bikes are allowed within the island, thus preserving its beautiful natural environment. There is a school and a small community and people commute to Male' by ferries. The Maldivian Government intends to preserve the natural environment even after the road link is constructed.
- 3) The Gulhifalhu Island, a non-residential island, has been partially developed by Gulhifalhu Investment Corporation. The reef shallow area will be reclaimed for warehouses, light industries, a labor park, recreational area and port.
- 4) The Thilafushi Island is a non-residential island and has been used as a dumping area for waste coming from the outlying islands, thus causing a serious environmental issue. The Maldivian Government is planning to clean the waste, build an incinerator and make Gulhifalhu a major industrial island. Oil tanks, cement bins, sand stock yards, warehouses, light industries and timber workshops are located on the island. Reclamation work at the southwestern side of Thilafushi Island has already been commenced by Thilafushi Corporation.

[B] Description of the Works

The project length is approximately 6.70 kms comprising of approximately 3.70 kms of bridge section, and approximately 3.00 kms of at grade roads/ embankment section and other civil works including interchanges and reclamations. The bridge sections are named from east to west as Male'-Villingili Link, Villingili-Gulhifalhu Link and Gulhifalhu-Thilafushi Link. Reclamation of Gulhifalhu and Thilafushi islands are being conducted by Gulhifalhu and Thilafushi Corporations. The project route runs along the southern periphery of reclaimed areas of the islands. The starting point of the project is at Boduthakurufaanu Magu road in the capital Male'. The route goes along the south edge of Villingili residential island, then along the south side of Gulhifalhu Island on reclaimed land and ends at Thilafushi Island. Bus terminals and motorcycle parks will be located on Villingili Island, Gulhifalhu Island and Thilafushi Island for use of the residents. On and off ramps will be provided to give access to Villingili and access roundabouts will be provided at Gulhifalhu and Thilafushi.

Preliminary details of the overall link are as below

(Note: All lengths suggested below are preliminary and there will be some flexibility in modifying the geometry based on the Employer's Requirements in the contract):

(a) Bridge lengths

Mainline	Male' - Villingili Link	1530 m
	Villingili - Gulhifalhu Link	1325 m
	Gulhifalhu - Thilafushi Link	880 m
	Total	3735 m
Ramp	Villingili (parallel to bridge)	565 m

(b) At-grade road lengths on reclamations and embankments

Mainline	Male'	141 m
	Gulhifalhu	2178 m
	Thilafushi	644 m
	Total	2963 m
Ramp	Villingili (parallel to bridge)	185 m

Project map is as below:

The project road will be designed to meet all necessary requirements for mixed traffic in an urban area. The bridge will cross over the three navigation channels between the islands. The landing points at the islands are located to minimize the bridge lengths by reclaiming shallow reef areas. Some of the reclamation will be part of this project. Along the entire length, a pedestrian/cycle path and a utility corridor will be provided. The project is proposed to be implemented in ONE construction contract, with two Sectional Completion dates for two Sections.

Details of the two Sections are as follows:

Section-1: Male'-Gulhifalhu Roundabout, to be completed within 30 months of award of contract.

This section comprises the following two sub-sections:

Male'-Villingili Sub-section - A 140m-span balanced cantilever box girder bridge is proposed over the navigation channel, with marine viaducts on either side of it typically comprising of 60m span box girder bridges. In the figure below left side connects to Villingili.

Villingili-Gulhifalhu Link: Between Villingili and Gulhifalhu islands where water depth deepens sharply toward the center of the channel, another 140m-span balanced cantilever box girder bridge is proposed. The mainline of the bridge will continue as marine viaducts along the shoreline of Villingili (right hand side of figure below). An interchange and connecting ramps to Villingili Island is proposed that requires some reclamation.

Gulhifalhu At-grade Road & Roundabout: An at-grade road and roundabout will be provided on the Gulhifalhu reclamation.

Section-2: Gulhifalhu-Thilafushi, to be completed within 32 months of award of contract.
This section comprises of the following two sub-sections:

Gulhifalhu-Thilafushi Link: Between Gulhifalhu and Thilafushi islands, water depth is relatively shallower, mostly in the 15-20m range. Gulhifalhu side is deeper, where another 140m-span balanced cantilever box girder bridge is proposed, which will connect to Thilafushi with viaducts and embankment.

C] Contract execution period

The duration of the contract is expected to be 32 months, followed by 12 months of Defect Notification Period.

D] GOI Guidelines

As per the GOI guidelines/approval, goods, works and services for minimum 75% value of the contracts covered under this Line of Credit, must be sourced from India. Applicants are advised to refer to the GOI guidelines mentioned above which are also available at <https://www.eximbankindia.in/assets/pdf/loc/GOI-Guidelines-on-LOC.pdf>

Canvassing in any form will be grounds for disqualification.</p> |
|--|---|

20. Clarifications during Evaluation

- 20.1 During the evaluation of Applications, in case of ambiguity, the Bank may, at its discretion, ask an Applicant for a clarification of its Application, to be submitted within a stated reasonable period of time. Any request for clarification from the Bank and all clarifications from the Applicant shall be in writing. Any clarification submitted by an Applicant that is not in response to a request by the Bank may not be considered.
- 20.2 If an Applicant does not provide (within the time allowed) clarifications and/or documents requested as per the Bank's request for clarification, its Application shall be evaluated based on the information and documents available at the time of evaluation of the Application.

21. Determination of Responsiveness of Applications

- 21.1 The Bank may reject any Application which is not responsive to the requirements of the Application Document and may not subsequently be made responsive by correction of the causes of non-responsiveness or by substitution or resubmission of the Application or part thereof.

E. Evaluation of Applications and Prequalification of Applicants

22. Evaluation of Applications

- 22.1 The Bank shall use the criteria and requirements defined in Part IV, Prequalification Criteria and Requirements, to evaluate the qualifications of the Applicants, and no other methods, criteria, or requirements shall be used. The Bank reserves the right to waive minor deviations from the prequalification criteria if they do not materially affect the technical capability and financial resources of an Applicant to perform the contract.
- 22.2 The qualification and experience of sub-contractor(s), if any, proposed by the Applicant will not be considered for evaluation of the Application.
- 22.3 Only the qualifications of the Applicant, in the capacity as prime contractor/ member of JV to the project employer, shall be considered. In particular, the qualifications of parent or subsidiary or any other affiliated company of the Applicant, who is not member of the JVCA except as permitted by ITA 4.3, shall not be considered.
- 22.4 The qualification and experience of the Applicant for execution of contracts in-house or for a parent/ promoter/ group concerns or for Special Purpose Vehicles (SPVs), set up by the Applicant or its group companies, shall not be considered. However, the experience of the SPV can be considered in favour of the Applicant provided it is established through documentary evidence that the SPV was established by the Applicant pursuant to a concession granted by a Project Authority who is unrelated to both the Applicant and the SPV and the Letter of Acceptance of bid/ Letter of Award was issued by the Project Authority in favour of the Applicant. Further, the FAC issued by the Project Authority should indicate that the project was executed by the Applicant as an EPC contractor.
