### **A] Background and Major Components of the Project**

Transport plays an important role in stimulating economic growth by increasing internal production and facilitating access to domestic and international markets while ensuring favorable conditions for provision and distribution of imported products within the country. The emphasis of the Government of Cooperative Republic of Guyana is placed on the development of transport infrastructure and services, in terms of construction, rehabilitation and maintenance of transportation networks, aimed at growth and economic development.

The transport policy identifies the need to reduce constraints to transport in order to promote sustainable economic growth and decrease poverty. Improving the quality of key international and domestic road corridors is part of a wider strategy to reduce travel time.

The East Bank- East Coast Road Linkage Project (Ogle to Haags, Bosch, Eccles); Phase-I involves Construction of the main alignment (East Coast–East Bank) for 7.80 kms from the Start Point, and Construction of Connector 2(Extension of Haags Bosch Road) for 3.58 kms.

The main alignment being constructed originates at the Junction of the Ogle Airport entrance Road on the East Coast Demerara Public Road and ends at 7.8 Km on the main alignment. The Connector 2 takes off from km 7.705 on Main Alignment on Right Hand Side (RHS) and joins with the existing Haags Bosch Road. The total length of Connector 2 is 3.580 km including taper length for merging with existing Haags Bosch Road.

This new road will directly link the East Bank Demerara Public road to the East Coast Demerara Public road, thereby allowing commuters who are travelling on either of these roads, an alternative to bypass the capital city of Georgetown if they are heading to the East Coast Demerara or to the East Bank Demerara. The road will be reducing travel time, decreasing vehicle operating cost and minimizing congestion in the capital city, Georgetown.

A 4.2 meters median will be constructed in the centre to separate the four lanes thereby allowing for two lanes of traffic flow in either direction. Each of the constructed lanes will be 3.6 m wide. Reinforced concrete drains, earthen drains, concrete sidewalks and a utility corridor will be constructed along the length of the roadway.

The road safety features will include streetlights placed on the medians to illuminate both sides of the four-lane road. Traffic and regulatory signs will provide guidance and warning to commuters. In addition, fourteen (14) culverts and four (4) minor bridges are proposed to be constructed.

The Scope of Works for the connector road at Eccles Haags Bosch includes the construction of 3.58 kilometers of Asphaltic Concrete two lane road. ## **B] Site and Other Data**

The Co-operative Republic of Guyana is a sovereign state on the northern mainland of South America. It is, however, considered part of the Caribbean region because of its strong cultural, historical, and political ties with other Anglo-Caribbean countries and the Caribbean Community (CARICOM). Guyana is bordered by the Atlantic Ocean on the north, Brazil to the south and southwest, Suriname to the east and Venezuela to the west. Guyana is the fourth-smallest country on mainland having area of 215,000 square kilometer (83,000 sq mi) in South America after Uruguay, Suriname and French Guiana (an overseas region of France).

The region known as "the Guianas" consists of the large shield landmass north of the Amazon River and east of the Orinoco River known as the "land of many waters". Originally inhabited by many indigenous groups, Guyana was settled by the Dutch before coming under British control in the late 18th century. It was governed as British Guiana, with mostly a plantation-style economy until the 1950s. It gained independence in 1966, and officially became a republic within the Commonwealth of Nations in 1970. The legacy of British rule is reflected in the country's political administration and diverse population, which includes Indian, African, Amerindian, and multiracial groups.

Guyana is the only South American nation having English as the official language. The majority of

the population, however, speak Guyanese Creole, an English-based Creole language, as a first language. Guyana is part of the Anglophone Caribbean. CARICOM, of which Guyana is a member, is headquartered in Guyana's capital and largest city, Georgetown. In 2008, the country joined the Union of South American Nations as a founding member. The proposed Road Project is located in Region 4 -Demerara-Mahaica, and will provide a direct link between the East Bank Demerara and the East Coast Demerara.

The corridor of the project is as follows:

### C] Contract execution period

The duration of the contract is expected to be Twenty-Four (24) months and defect liability period of 12 months.
