Introduction:

The Government of the Republic of Mauritius has appointed an Indian Project Management Consulting firm NBCC (India) Ltd. for the construction of FORENSIC SCIENCE LABORATORY.

The Consultant has worked in close collaboration with PMT (project monitoring team) and thereby advise the FSL (Forensic Science Laboratory) on each and every aspect of the project in accordance with an agreement that is signed by both parties. Certifications made on documents and drawings by the Consultant will be endorsed by the Employer's Engineer.

Forensic Science laboratory has been proposed by the Government of Mauritius in order to cater to the growing demand for the facilities & workspace within the existing facility of the Forensic Science Laboratory. So as not to restrict the development of the Laboratory, the Government of Mauritius intends to construct a Modern State of the Art - Forensic Science Laboratory that meets building codes and International accreditation.

Major Components of the project: The project shall comprise of the following:

- An Administration Section
- Forensic Science Laboratories (Biology, Chemistry, Toxicology, Human and Non-Human, Physical and Ballistics, Document, DNA)
- Procurement Section
- Police Post
- Shooting Range
- Vehicle examination section
- All other ancillary services
- Parking facilities with secured parking for staff and senior personnel.
- Training and Crime Scene House

The building is designed with flexibility to support adaptability and change. The area of the proposed Scientific Laboratories and administrative section will be approximately 6000 m².

Site & Proposed Design:

The proposed Forensic Science Laboratory Site is conveniently accessed from the main road and visible from the main Highway. It is currently devoid of any large trees and is slightly contoured. The building will be built on a plot of 10,921 m² that has been earmarked for the project at La Vigie, Curepipe, and Republic of Mauritius.

The land is completely covered with bushes and vegetation. The site carries a downwards slope towards the South East. There are trees and a natural drain running along one edge on the South East side. The Entry to the site is an unpaved road, which will be upgraded during construction.

All the major components of the project have been placed in such a way that they are complementing each other and at the same time are segregated to symbolize the different nature & typology of the functions. All the facilities are proposed to be equipped with all the modern & latest equipment /technology so that the complex can be developed as a world class facility. An integrated & seamless vehicular circulation plan has been proposed to efficiently cater to the users within the complex. Traffic plan has been emphasized on providing a conflict free movement of private, VIP, services, security, fire and ambulance vehicles. The entire complex has been designed to provide a barrier free movement to its users.

Provision of parking at Surface level parking has been considered to meet the project requirement. 90 car parks along with 2 emergency vehicles have been considered in the parking design.

Location Description:

Mauritius officially the Republic of Mauritius is an island nation in the Indian Ocean. The main Island of Mauritius is located about 2,000 kilometers (1,200 mi) off the southeast coast of the African continent. The Republic of Mauritius also includes

the islands of Rodrigues, Agalega and St. Brandon. The capital and largest city Port Louis is located on the main island of Mauritius.

Mauritius is known for its beaches, lagoons and reefs. The mountainous interior includes Black River Gorges National Park, with rainforests, waterfalls, hiking trails and wildlife like the flying fox. Capital Port Louis has sites such as the Champs de Mars horse track, Eureka plantation house and 18th-century Sir Seewoosagur Ramgoolam Botanical Gardens.

It is divided into 9 regions :
