Part I: Scope of EPC

The Export-Import Bank of India (hereafter Exim Bank or the Bank), on behalf of the Government of India (GOI) has approved financing of various developmental projects out of a Line of Credit extended to the Government of Maldives. A part of the LOC shall be utilized for the project for the construction of Cricket Stadium Complex in Maldives. for which Exim Bank now seeks applications for prequalification from eligible Indian entities. Refer Part II ITA 4 for eligibility provisions.

A] Background and Major Components of the Project

Site and other Data

The Republic of Maldives, is a small island nation in South Asia, located in the Arabian Sea of the Indian Ocean. It lies southwest of Sri Lanka and India, about 1,000 kilometres from the Asian continent. The chain of 26 atolls stretches from Ihavandhippolhu Atoll in the north to Addu Atoll in the south. Comprising a territory spanning roughly 298 square kilometres, the Maldives is one of the world's most geographically dispersed sovereign states as well as the smallest Asian country by land area and population, with around 515,696 inhabitants.

The International Cricket Council elected Maldives to be a member country for Twenty 20 matches, for the purpose of promoting the game in the island nation. This coincides with the aims of the Government to promote the game and develop a 20000 seating capacity, International Standard cricket stadium complex that can be used both locally, and to also host international Twenty 20 cricketing events.

The Cricket Control Board of Maldives (CCBM) was established on 1 January 1983 by the government to promote and develop the game of cricket in the Maldives. The Maldives became a member of the Asian Cricket Council in 1996, and an affiliate member of the International Cricket Council in 1998.

The proposed site is located in Hulhumalé suburb, which is well connected with roads and ferries with the capital city of Male'

Project background

The stated objectives and goals of the stadium are:

1. To develop a stadium with 10,000 seats for a range of uses including, but not limited to: Cricket, concerts and other entertainment events.
2. In addition to the standard codes, the stadium shall meet the requirements of the following codes:
 - ICC Guidelines for crickets stadium
 - BCCI Guidelines for cricket stadium
 - Relevant safety guidelines as prescribed by the Government of Republic of Maldives.
3. To provide a highly cost effective low maintenance facility.
 - a. To complement a sports and entertainment precinct that can be used seven days a week by ensuring the stadium integrates with, and makes use of, adjacent civic spaces and commercial and community facilities.
4. Strengthen the national infrastructure capacity in tourism and hospitality business by allowing the nation to be able to host international cricket tournaments and events frequently, i.e. IPL or Asia Cup.
5. To act as a catalyst for complementary development in the surrounding area.
6. To provide a facility that will achieve a 50 year life.
7. To provide a facility that can be utilised all year for a number of events, in order to maximize opportunity for revenue generation and sustainability.
8. To provide an “Iconic” stadium facility that reflects the growth of sports in Maldives and is a showcase for sports and the state both nationally and internationally.
9. To provide a facility that will allow Maldives to effectively compete for international sports events against comparable facilities in Asia.
10. To provide a sustainable development that will enhance public utilisation of facility and ancillary structures.
11. That will control and mitigate effects on local communities surrounding the stadium.
12. Roof coverage for 75% of the seats.
13. The seating bowl shall be provided to maximise the atmosphere and locate patrons as close as possible to the field of play.
14. The seating bowl shall be column free and allow excellent viewing conditions for sports and events held in the stadium.

In addition to the stated Objectives, the complex should also achieve the following goals:

1. To create a multi-use, 10,000 seat stadium that maximises atmosphere and intimacy and will enhance the event experience for spectators for all sports.
2. To create a stadium that is internationally recognised as a world-class venue for the showcasing of professional sport and entertainment.
3. Sufficient infrastructure to allow for safe entry and egress for the site.
4. To provide a design that adheres to the principles of Environmental Sustainable Design with a minimal ecological footprint.
5. To provide an iconic design solution that represents the unique environment of Maldives along with the aspirations of the community, which it serves.

Scope of EPC

The scope of EPC includes the construction of a Multipurpose Sports Complex.

Details are as under:

Major Components of the Project

1. FIELD OF PLAY

A minimum of 2 emergency vehicle access routes onto the playing field, 6-meter wide and fitted with suitable security gates, shall be provided.

1.1 Cricket Ground

The Cricket Ground should follow and comply to the ICC minimum standards for new cricket grounds.

1.1.1 The Field

The playing surface shall be natural grass incorporating permanent drainage and irrigation points. The field and pitch must drain well and the grass be cut short to result in a fast outfield.

1.1.2 The Pitch

Pitches will be orientated north to south. A total of 5 pitches will be provided with the spacing of 3.66 meters between the pitches. The pitch should have 'true bounce' throughout for the duration of the games, and be of reasonable pace. The pitch cover shall be provided to cover all pitches and shall have a raised rim built into its edge, and have 4 discharge outlets at its corners to allow water that collects on the cover during rain to be discharged into the field drainage system. The bowler's run-ups shall be provided with adequate covers.

1.1.3 Boundary & Moat

A continuous Fence / Moat will be provided around the stadium in front of the spectator seating. It is important under emergency circumstances to allow access across the moat on to the playing area and therefore a method of bridging the 'gap' will be incorporated, either on a permanent or temporary basis.

1.2 Turf Protection

Turf protection is to be provided to allow for the change in events from cricket to a concert and back again. Turf protection tiles are used to achieve this change. These tiles are Translucent which allows for photosynthesis to continue and therefore not damaging the turf.

1.3 Turf Drainage Design

The cricket field should be constructed with the most optimum sub-surface drainage solution for the cricket fields to sustain extreme climatic conditions. The System should provide the ability to promote healthier, stronger, and safer turf by accelerating moisture removal and increasing the amount of oxygen to the root zone. The system should help in providing an optimal growing environment for any playing surface – increasing playability and producing a more enjoyable experience for players and spectators.

2. SEATING BOWL

The total minimum ground spectator capacity upon completion is to be 10,000 seats. The functional requirements are summarized here:

- A variety of seating types will be configured around the circular ground, consisting of a combination of general admission seating, members seating, private boxes, dine & view seating and press seating.
- Seating for people with disabilities will be available within each seating category and distributed at various locations within the seating bowl.

3. SITE REQUIREMENTS

- The playing field is to be oriented within the optimum parameters for field orientation. Orientation should also maximize external circulation / evacuation space. To maximize the

multi-use nature of the field the relevant sporting codes has indicated that the North/South Orientation of the cricket pitches are acceptable.

- On-site parking to be provided for non-event day. This parking will serve as an enhancement to the surrounding developments. On an event day, use of these car parks will be restricted. The public plaza of the stadium should create an area for pedestrian circulation and other activities. Any adjacent car parks and kerbing to be designed to accommodate pedestrian flow and the finishes of the car park will be integral with the plaza so it appears as one space, but should align with local road policy. In addition, dedicated stadium parking will be provided for administration, operations, media, team, and possibly VIP parking.
- Event day vehicular access to the site will need to be accommodated within the design as it will be required primarily for media, services and operational teams, VIPs and emergency vehicles.
- Boulevard-type atmosphere. The plaza is to be designed as an open space to allow for maximized and safe pedestrian circulation during events. Some hard landscaping components, such as benches, may be integrated in strategic locations to enhance the plaza and break down the scale of the open space.
- Power outlets for plaza use to be incorporated into the enclosure of the stadium exterior.
- The main public entries to be located to respond to the largest influx of spectators.
- Environmentally sustainable design: Provisions for storm water retention to be included.
- Adequate Storage tanks to be included for fire protection
- Provision for large external Video Boards.

4. TEAM FACILITIES

Team facilities shall be located in the North Pavilion and will have direct access to the playing field. There will be ramped entrances for player's access onto the field. Team facilities shall be completed to include air conditioning, finished walls, floor finishes, ceilings, general lighting, furniture, electrical sockets and media requirements. Parking for two team buses will be required as close as possible to the team change facilities.

4.1 Teams Changing Rooms – Cricket (2 Nos)

Air conditioned changing room that will accommodate 25 players, including locker space (25) hanging space and benches in front of lockers with direct access to shower area.

4.2 Umpire / Referee Changing Rooms

Air conditioned changing rooms shall be provided for match officials. The room will be located with direct access to the Field of Play.

4.3 First Aid

Provide an air conditioned first aid treatment suite for use by players (spectators in extreme emergencies) as needed on match days. The main first aid suite shall be situated at pitch level on the team changing room side of the service level with direct access to the field through the pitch access vomitories for the transfer of injured players by Ambulance. Two ambulance bays shall be located adjacent to the facility.

4.4 Doping Control Room

A doping control room shall be provided adjacent to the Team Changing Rooms. The facility will be located away from media accessible areas to provide players privacy.

4.5 Player's Lounge and Family Room

An air conditioned player's lounge will be shared by all teams, and shall be located in close proximity to the central drop off area for the teams with access to both changing areas. A serving counter and a finishing kitchen to serve snacks and light meals.

4.6 Entrance Lobby and Hall of Fame

The Main Entrance Lobby to the Players / North Pavilion will include a dedicated display space for trophies and memorabilia.

4.7 Player's Benches

Two team portable benches shall be located with direct access to the centre line Player's Tunnel to the team changing rooms.

5. SPECTATOR FACILITIES

5.1 Capacity

The approximate net seating distributions, including wheelchair positions as currently planned are listed in the table below. It is proposed to offer various levels of season ticket and associated amenity packages which will be incorporated into the General Admission and VIP seating configurations.

The following table is based on stadium capacity of 10,000 seats.

Seating	Capacity	Comments
General Admission	9000	Public Seating
VIP Members	830	Seating for premium members
VVIP Members	210	Reserved Suite for special invitees
Disabled (0.5%) + Companion seating (0.5%)	200	Distributed across all seating categories and locations.
Total	10240	

5.1.1 General seating requirements

A variety of seating types will be configured around the playing field, consisting of a combination of general admission seating, reserved seating, corporate seating including corporate boxes and suites, press seating and team seating.

- A variety of seating types will be provided and configured around the circular ground (arena), consisting of a combination of disabled seating, general admission seating, corporate box and dine & view seating.
- Total net capacity of approximately 10,000 spectators seating capacity.

5.1.2 General admission seating

New general admission seating shall have Bucket seats with backs. Removable public seating adjacent to all disabled seating spaces to be provided to allow maximum of 6 disabled spaces in a group. Additional banks of seating to be provided to allow for use in disabled seating space, when disabled spaces are not being used.

5.1.3 Corporate suite seating

Corporate Suites having enclosed Air Conditioned private hospitality space with fixed pitch view seating in front of the suite glazing. Suites shall be located to allow an excellent viewing angle to the pitch.

5.1.4 Accessible (Disabled Seating)

Seating for People with Disabilities will be distributed at various locations within the seating bowl within all seating categories and all tiers of the stadium.

5.2 Public & Corporate Dining Rooms

The public and corporate dining areas should be provided with various amenities.

5.3 Public Toilet facilities

Adequate public toilets shall be provided throughout the stadium evenly distributed off the public concourses located behind the seating tiers.

5.4 Corporate & VVIP Toilets

VVIP Seating / Dining areas and Private Box toilets shall be of a higher quality finish.

5.5 Prayer Rooms

Prayer Rooms are provided at multiple locations throughout the stadium. Prayer room is a quiet location set aside in a busy public place (stadiums, hospital, university, airport, etc.) where people of differing religious beliefs, or none at all, are able to spend time in contemplation or prayer. Many of these spaces are "small, clean and largely unadorned areas", which can be adapted and serve for any religious or spiritual practice.

5.6 Merchandising outlets

Merchandising outlets shall be provided at locations within the public concourses.

5.7 Public first aid rooms

Satellite first aid stations will be distributed throughout the public concourses. Spectators requiring more extensive treatment and/or x-rays will be evacuated by ambulance to local hospitals.

5.8 Signage/graphics

A comprehensive, visible, readable, flexible and effective signage system shall be provided both outside and inside the building. The graphics shall be coordinated with those for the entire complex.

5.9 Match Day Public Information Office

Match Day Public Information Office to be provided. It is to be accessible both externally and internally to the ground. This facility will be used for Lost Children, Lost & Found etc. All power, data, and telephone outlets shall be provided.

5.10 Ticketing Windows

Ticketing windows will be provided at all Main Gates into site. Non-event day ticket sales will be in the club facility.

5.11 Public Telephones

Public telephone booths shall be located on the main concourse adjacent to the entry points. These shall be free standing units and shall be contained within acoustic shrouds at designated locations close to the main entry points.

5.12 TV Monitors

Provision of Space and Support for large size Flat Screen TV monitors, including all power, data and MATV cabling requirements should be located in the following locations:

- Throughout the public concourse
- Adjacent to food and beverage concessions.
- Within all Corporate Suites
- Players Areas

6. FOOD AND BEVERAGE CATERING REQUIREMENTS

The planning requirements of the Food & Beverage Services shall meet the catering needs of the stadium in an efficient and effective manner. The needs of all the different user groups identified have to be incorporated into the detailed design.

The location of the various areas that make up the Catering System shall be carefully considered to ensure easy distribution of food and beverages from loading dock to end-user.

6.1 Food and Beverage Service

An efficient and effective system for serving food and beverages to spectators, suites and boxes, hospitality spaces, and athletes is an important component of successful stadium operations.

6.2 Catering Support

The main kitchen / kitchens and commissary will be located with immediate access to the loading docks and service lifts and shall be designed to accommodate all match day catering requirements.

6.3 Catering Staff Facilities

Space will be provided within the commissary for Catering administrative offices, staff lockers, uniform distributing, and event-day briefing. Laundry facilities are to be included within the facility. Space will be provided for temporary catering staff in close proximity to the main catering facilities and a briefing room on the service level of the stadium

7. ENTRANCES AND CIRCULATION

7.1 Entrances / Ticketing & Ticket Booths

An efficient and effective control system for access into and exit from the stadium will be provided for all users, including both Event-day and non-Event day times.

7.1.1 Turnstiles

Provide provision for a minimum of 1 turnstile for 660 spectators at public entries.

7.1.2 Access and Circulation

A system for the efficient and effective control of access into and out of the Stadium and circulation around the outside and within the Stadium shall be provided for all users.

7.1.3 Corporate and VIP Entrance

A separate entrance lobby is to be provided for the Corporate Suite, Corporate Box, VIP, sponsors and guests on the main public access level and preferable in close proximity to car parking

7.1.4 Players Entrance

- A secure Players' entry within the building with bus drop-off. This entrance shall be protected from public exposure and shall be able to accommodate at least two team buses parked in front of the Main entry or Secondary entry.
- Direct access from the entrance area to the changing rooms shall be provided.

7.1.5 Staff Entrance

A single entry point will be provided for all event staff and catering staff with direct access to the external plaza areas surrounding the stadium. This space shall be adjacent to the events offices and catering offices, including changing rooms, dining room and uniform distribution.

7.1.6 Media Entrance

Media parking to be located as close as possible to the media access/egress point. A lift is to be available for use by the media staff to allow the vertical circulation of media personnel and equipment. All media facilities are to be separated from

the public by secure means. All doors into the media areas are to be controlled with electric locks and proximity card readers.

7.2 Access and Egress

A public egress system shall be provided so that in emergencies it allows the public to leave the Stadium by smooth unimpeded exit routes to adequately lit and clearly indicated assembly points in safe areas. The emergency egress system shall be designed in accordance with the "Guide to Safety at Sports Grounds" (The Green Guide)

7.3 Concourses

7.3.1 Public Concourses

The main public concourse shall be located behind all main seating tiers and shall serve directly all vomitories, concessions, and toilets.

The concourses shall be designed to ensure the safe passage of spectators in the event of an emergency to appropriate exits. The basis for the width of the concourse shall be as set out in the United Kingdom "Guide to Safety at Sports Grounds" (Green Guide) and in accordance with good international practice and local and national regulations.

7.3.2 Corporate Suite Concourse

Private corridors will provide access to the Suites and Boxes and associated toilet facilities. These corridors shall feature upgraded finishes, similar to the suite finishes.

7.4 Passenger Lifts

Passenger lifts shall serve all main levels of the stadium. All lifts shall conform generally to National Building Code and other safety guidelines.

7.5 Service Elevators

Service Elevators will be provided with fully opening doors and durable stainless steel finish. Goods lifts will have a minimum 3500 kg load capacity. Goods lifts required to be close to kitchens, storage and service areas.

7.6 Stairways and Ramps

Stairways and ramps will be designed for Emergency Exit in accordance with the Green Guide and the MNBC. Stairways will be distributed throughout the building, from lowest level to the upper floor, allowing for both public and service use

7.7 Field Entrances

A minimum of two pitch access points shall be provided from the Service Road to the FOP. These shall provide access for service vehicles, pitch maintenance vehicles and emergency vehicles as well as providing alternate means of egress from the field of play for events where patrons are located on the field (Concerts, Opening Ceremonies etc.).

These access points shall also be designed to assist the natural ventilation of the field to promote healthy grass cultivation.

8. PRESS FACILITIES

8.1 Media Access

Media parking is to be provided on the entry level and is to be located as close as possible to the media access/egress point. A lift will be located as close as possible to the media area to allow the vertical circulation of media personnel and equipment. All media facilities are to be separated from the public by secure means.

8.2 Written Press Box

A written press box shall be provided with a clear elevated view on the field.

8.3 Media Facility – Lounge

Provide a lounge area within the press area. This lounge shall be capable of serving food and beverages to all written press, TV and radio broadcasters. It may be used as the expansion space for the main press workroom for major events.

8.4 Toilets

The press shall have dedicated male and female toilets adjacent to the media lounge.

8.5 Player Interview/Conference Room

A conference & interview room will be provided for interviewing players and coaches in an 'official' setting with appropriate lighting, backdrop, air conditioned and adequate space for reporters and cameras. The interview room will be in close proximity to the team change rooms. This room shall be provided with television cable links, radio broadcasting, television box and links back to all press areas.

8.6 Interview Areas at Pitch Level

In addition to the main press conference room located in close proximity to the players and media facilities on the service level the following zones shall be provided at pitch level.

9. BROADCAST FACILITIES

9.1 Television Broadcasting Box

Two television broadcasting booths shall be provided with special acoustic treatment to walls and ceilings. Allow for the maximum flexibility for the producer's camera positions and presenters back- drop of the arena. Sufficient height shall be provided to ensure adequate lighting positions.

9.2 Television Pre/Post Production Studio

The studio shall be sized to accommodate 4 presenters (located at the front of the booth), camera operators and sound engineers, for a total of 10 persons at one time. The front of the booth shall be fixed with anti-reflective glass to allow the presenters to be shot with the pitch as a backdrop. These spaces shall be built as shell space only to be fitted out by the TV networks.

9.3 Radio Broadcaster Booths

Radio broadcasting booths shall be provided for radio commentators and shall have built-in counters and special acoustic isolation treatment on walls and ceilings to each box. The spaces shall be flexible to accommodate the varying broadcasting media requirements

9.4 Third Umpire Room & Scorer

Third Umpire Room shall be located at an elevated position with preferential view to pitch and scoreboards.

9.5 Production Control Room

The Production Control Room will be located in the lower level of the building to facilitate ease of movement of Heavy Equipment.

9.6 Camera Platforms

Final camera positions will be subject to the requirements of individual broadcasters and producers for each particular sport. The camera and cabling requirements positions shall be located around the ground as per ICC Guidelines. Camera positions to be designed to minimize obscuring sightlines from seating and shall not reduce the spectator capacity of 10,000

9.7 Television Outside Broadcast Vehicle

Parking for OB Vans shall be provided within the stadium compound within 100m of the main TV Box and with minimum clearance height 4600mm. Patch room to be provided within the OB Van parking area with direct link to all camera outlets and Broadcast Box and interview rooms.

9.8 Cabling/Service Provisions

The cable route from the OB Van compound and parking area into the building will allow for easy access to cabling routes. Permanent fibre optic cabling shall be installed to the primary broadcast facilities between Broadcast Room, OB Van Area and all the camera positions.

10. STADIUM OPERATIONS FACILITIES

10.1 Stadium Management

The stadium management requirements shall be developed further in consultation with the stadium operator as the design progresses. At this feasibility stage the following provisions shall be made:

10.1.1 Stadium Management Offices

Stadium Management offices shall be provided with access to natural light and ventilation. A space allocation shall be made at this stage.

10.1.2 Maintenance Staff Lockers

Locker/shower/toilet rooms for full-time staff, including grounds keeping and maintenance personnel, will be provided. Separate shower facilities will be required for male and female staff.

10.2 Security

This brief allows for the inclusion of separate facilities for privately contracted Stadium Security and the Maldives Police, which shall work jointly during events.

10.2.1 Main Security Office

The main security office suite will be located on the lower level in close proximity to the main entry. It will be used for coordinating security personnel and stewarding operations on event days. It must be able to accommodate all emergency services in case of building evacuation, so all basic facilities within the event control room will be duplicated, in a reduced fashion. It will be located in a different quadrant than the Event Day Command Post.

10.2.2 Security Help Desks

Security help desks and offices shall be located adjacent to the main entry points.

10.2.3 Police

The main Police office shall be located in an ideal location in discussion with them and the stadium authorities.

10.3 Event Storage

10.3.1 Cricket Equipment

Storage for equipment, including boundary ropes, sight-screens, and balls, will be provided on the Field Level, with direct access to the field.

10.3.2 Entertainment Equipment

Storage for pre-event and half time entertainment production equipment will be provided in the service level. This may be a lockable multi-purpose room, or other service level rooms not required for concert / opening ceremony use. On site storage will be required for seats removed to allow for stage set-up.

10.3.3 Rigging Store

Storage for rigging equipment shall be provided within the entertainment equipment stores and main facility workshops.

10.4 Grounds keeping

A large storage area for grounds keeping materials and equipment will be provided. This will be located adjacent to the pitch, with direct access by grounds keeping vehicles.

10.5 Janitorial

10.5.1 Central Supply Storage

A centralized storeroom will be provided on the Service Level for storage of bulk cleaning supplies.

10.5.2 Cleaner's Closets

Each pair of public toilet rooms will have a cleaner's closet, with a mop sink and space for storing toilet room supplies.

10.5.3 Rubbish Collection

Rubbish collection rooms will be distributed on each level for handling of waste collections.

10.5.4 Waste Compactors

Waste Compactor units shall be located beneath all refuse chutes. A refrigerated compactor area shall be located adjacent to the central kitchen.

10.5.5 Waste Management Office

A Waste Management office will be located adjacent to the main service drive and in close proximity to the main refuse transfer point.

10.6 Maintenance

10.6.1 Maintenance Storage

A large storage room will be provided for storage of materials and supplies.

10.6.2 General Building Storage

A large storage room will be provided for miscellaneous building storage.

10.7 Building Services

Space allocation shall be allowed for the following building services.

- Mechanical

- Electrical
- IT/ Communications
- PA Systems
- Fire
- BMS
- Lifts

Noise generating plant equipment shall be ideally located away from acoustically sensitive areas. Where possible, roof top equipment shall be attenuated and isolated to avoid noise breakout. Consideration is being given to utilizing the principles of environmentally sustainable design to minimize the use of air conditioning plants.

11. STADIUM CLUB FACILITIES

11.1 Lounge & Reading Area

The lounge/bar is an integral part of the Club and will be a space directed towards adult use. It will have a full service sit-down bar for beer, wine and mixed drinks. Provide a dedicated storage room for the lounge/bar. The lounge/bar will possibly include games such as billiards and other table games, darts, and shuffle board. Multiple TV monitors will be included as part of the interior space of the Lounge

11.2 Gymnasium & Fitness Centre

The fitness gym is generally separated into individual zones, determined by equipment and exercise types - Stretch area (warm up), cardiovascular area, and Resistance and/or free weights area

11.2.1 Floors

The floor structure must be able to resist high dead loads imposed by the equipment, along with the potential for high live loads.

11.2.2 Walls

Finishes should take account of the ease of cleaning and maintenance. Scuffing of walls by moving equipment and users may be a particular issue. Users may also use walls during stretching exercises. Therefore, sharp edges and wall projections should be avoided in these areas.

11.2.3 Mirrors

Continuous mirrors should be provided in required zones. The mirrors should be a minimum of 2m high. Mirrors should be securely fixed above skirting level, to avoid impact from loose weights or cleaning equipment. Large continuous mirrors should not be directly fixed to walls but be fixed onto a rigid plywood backing board to avoid distortion. Point fixing mirrors should be avoided. Mirrors should be bonded to their backing board or mounted onto a metal carrier frame.

11.2.4 Ceilings

Fully suspended ceilings with raised (or coffered) feature areas giving extra height needed for specific equipment. Support integrated or hanging fixtures e.g. loud speakers, ventilation grilles, lighting. Heavier fittings e.g. air conditioning units, screens or gantries should be supported from structural points. Allow easy access

to building services located above the ceiling. Gyms are generally highly serviced areas.

11.3 Indoor Cricket Academy

10 Nos. of Indoor Practice Pitches are provided. Coach Rooms and Discussion Rooms are provided as part of the academy. Lockers and changing rooms are provided for the players.

11.4 Multipurpose Hall

Multipurpose hall is provided for recreation of the club members. Billiards, Snookers and table tennis tables are provided along with seating areas. This can be multi used for Yoga/ Meditation or some other purpose.

11.5 Swimming Pool

Full Olympic Size Pool of size 50m x 25m is provided along with required surrounding pool deck areas.

11.6 Cafeteria

Cafeteria cum informal seating area is provided in the club area.

11.7 Club Changing and Locker Rooms

Separate sets of locker and changing rooms are provided for the club areas. One set of Dry Changing and Locker Room for male and female is provided for Indoor Cricket Academy and Fitness centre. One set of Wet Changing and Locker Room for male and female is provided for Swimming Pool and Hydrotherapy.

11.8 Outdoor Courts and Recreational Areas

2 Nos. of outdoor Tennis Courts are provided on the Podium to activate it on non-match days. 2 Nos. of Basketball courts are provided in the public plaza areas along with 4.5m high fencing on east side (fixed) to be provide with two access gates. |-------------------------------------|--|
| 1. Background | 1.1 The Export-Import Bank of India (hereinafter called “the Bank”), on behalf of the Government of India (GOI), extends from time-to-time, concessional credit facilities (hereinafter called “Lines of Credit”) under the Indian Development and Economic Assistance Scheme (IDEAS) to overseas governments or their nominated agencies (hereinafter called “Borrower or Employer”), for financing projects to be executed by Indian entities. Payment by the Bank to the Indian exporters will be made only at the request of the Borrower and upon approval by the Bank, and will be subject, in all respects, to the terms and conditions of the credit (or financing) agreement. |
| 2. Scope of Prequalification | 2.1 With reference to the Invitation for Prequalification (IFP) indicated in Part III, Data Sheet (DS), this Application Document (“Application Document”) is being issued by the Bank to prospective applicants (“Applicants”) interested in submitting applications (“Applications”) for prequalification as per the scope described in Part I, Scope of EPC and subject to the provisions of this Application Document. |
| 3. Ethics and Integrity | <p>3.1 The Bank requires Applicants to participate in this prequalification process with the highest standards of ethics and integrity. It is strictly forbidden to the parties involved in the prequalification process, by themselves or by a third party, to offer, ask or accept for itself or for a third party, financial or non-financial advantage or even direct or indirect promise or any other acts¹, as offsets for prequalification or bidding or contract award and execution as applicable, if susceptible of being qualified as criminal unlawful acts in accordance with national laws of any party involved.</p> <p>3.2 In pursuance of ITA 3.1 above, Applicants shall permit the Bank to inspect all accounts, records and other documents relating to the submission of the Application, bid submission (in case prequalified), and contract performance (in the case of award), and to have them audited by auditors appointed by the Bank.</p> <p>3.3 If, in accordance with the administrative procedures of the Bank, it is demonstrated that an Applicant in this prequalification process, or during the subsequent bidding for the contract(s) has violated the provisions stated in ITA 3.1 above, the Bank, inter alia,</p> <ul style="list-style-type: none">a. shall reject any Application for prequalification or proposal to award a contract in connection with the subsequent procurement process, as applicable; and/orb. may declare an Applicant, temporarily or permanently, ineligible to be awarded future contracts under Bank funding. |
| 4. Eligibility of Applicants | 4.1 This prequalification exercise is open to only Indian Applicants in accordance with the provisions of ITA 4.4. Any form of association by the Applicant with ineligible entities either during this |

¹ These acts shall include, but not limited to, corrupt practice, fraudulent practice, collusive practice, coercive practice, obstructive practice, and conflict of interest.

prequalification process or subsequent bidding process may be liable for rejection.

- 4.2 For the purpose of applying the eligibility criteria listed in this article 4, "Applicant" would include the single entity or in case of a joint venture ("JV"), each member of the JV, involved or intended to be involved with this prequalification process (as mentioned in Form A.1.2 Applicant's JV Member's Information Form), for any part of the prospective contract(s) including related services.
- 4.3 An Applicant may be a single entity or a combination of entities in the form of a JV either existing or with the intent to enter into a JV supported by a letter of intent or JV Agreement listing out the names of all the JV members. In the case of a JV, all members shall be jointly and severally liable for the execution of the contract(s) in accordance with the respective contract terms. The JV shall be represented by an authorized representative who shall have the authority from all members of the JV to conduct all business for and on behalf of the JV during the prequalification process. The limit on the number of members in a JV would be as specified in the **DS**.
- 4.4 This prequalification exercise is open to only Indian Applicants. An Applicant shall be deemed to be Indian if the Applicant is constituted, incorporated or registered, and operates in accordance with the provisions of the laws of India, as evidenced by its articles of incorporation and its registration documents, as the case may be.
- 4.5 An Applicant that has been blacklisted/ debarred/ sanctioned by any Multilateral Development Agency (MDA) or any authority in India or the borrowing country in accordance with extant rules and procedures, shall be ineligible to participate in the prequalification/ bidding process as applicable, during such period of time as the sanctioning authority shall have determined. In case the Applicant is blacklisted/ debarred/sanctioned, the Applicant shall immediately inform Exim Bank of such blacklisting/ debarment/sanction and reasons thereof. This may lead to cancellation of prequalification / contract.
- 4.6 The list of debarred firms and individuals by certain leading MDAs is available as specified in the **DS**. This may not be an exhaustive list of debarred entities but those which are made available centrally on the respective MDA's website. Additionally, there could be lists of debarred entities issued by various government departments/ procuring entities/ corporations and maintained offline.
- 4.7 An Applicant shall be ineligible to be prequalified if (a) it is currently under default on any loan to any Bank/Financial Institution (FI) and its account has been classified as Non-Performing Asset (NPA) as per Central Repository of Information on Large Credits (CRILC) database; and/or (b) its promoters/directors appear in Negative List, RBI Wilful Defaulter List (Suit filed as well as non-suit filed), Credit Information Bureau India Ltd. (CIBIL) Defaulter List and/or any other negative list of central and/or state government agencies, updated from time-

to-time. On being included in any of the above lists post the prequalification process (i.e. including during bidding process and/or contract implementation phase), the Applicant shall immediately inform Exim Bank on the inclusion and reasons thereof. This may lead to cancellation of Applicant's prequalification / contract.

4.8 An Applicant (i) be eligible with respect to the provisions of Public Procurement Orders No. 1 & 2 dated 23.07.2020 and Public Procurement Order No. 3 dated 24.07.2020 issued by Department of Expenditure, Ministry of Finance, Government of India; and (ii) shall furnish such evidence of eligibility satisfactory to the Bank, as the Bank shall reasonably request.

4.9 The Applicant shall propose three (3) Independent Designers to design the permanent works. The Designer may be a single entity or a joint venture. The Designer may be of any nationality, and shall meet the minimum requirement on qualification as specified in Part IV of this Application Document. The Designer shall not sub-contract any of its obligations under the Contract without approval in writing from the Employer.

The selected Contractor shall appoint one (1) Designer from the above list of Designers submitted at this stage once Contract is awarded.
