Introduction:

The Discipline Force Services include the Mauritius Police Force, Mauritius Prison Services and the Mauritius Fire and Rescue Services. These three services run three schools separately to cater for the training of their personnel.

Mauritius Police Academy has been proposed by Mauritius Police Force (MPF) with an aim to regroup the police training institutions segregated across the island into one single consolidated campus, so that training and development of Police officers at all levels can be provided a quality service with pride and care and meet the organizational vision "With you, making Mauritius safer".

Police Officers are increasingly being confronted with new types of sophisticated crimes whilst being pressed by the growing demands for service excellence. Hence, there is a need for a modern, professional and flexible Police capable of addressing contemporary issues and proactively targeting emerging challenges. With a view to transform the organization and empower Officers to become effective leaders of Community Policing, the proposed project would cater for state-of-the-art infrastructure in line with modern standards for a training institution. The project also aims at setting up such facilities which could be used for police/official functions other than training, making the Academy a "one-stop shop" for social, cultural and educational events of the MPF.

The Government of the Republic of Mauritius has appointed an Indian Project Management Consulting firm NBCC (India) Ltd. for the construction of Mauritius Disciplined Forces Academy Building. The Consultant has worked in close collaboration with the PMT (Project Management Team) appointed by the Ministry of Defence & Rodrigues for C/o Mauritius

Disciplined Forces Academy. Certifications made on documents and drawings by the Consultant shall be endorsed by the PMC's Engineer.

Major Components: "The project will include the setting up of main administrative block, training buildings, residential buildings and outdoor facilities equipped with modern and state of the art training establishment. In view to harmonize the buildings with the surrounding environment, it is proposed that the built-in surface area should not exceed 20% of the total surface area of the land available."

All the major components of the project have been placed in such a way that they are complementing each other and at the same time are segregated to symbolize the different nature & typology of the functions. All the facilities are proposed to be equipped with all the modern & latest equipment /technology so that the complex can be developed as a world class facility. An integrated & seamless vehicular circulation plan has been proposed to efficiently cater to the users within the complex. Traffic plan has been emphasized on providing a conflict free movement of private, VIP, services, security, fire and ambulance vehicles. The entire complex has been designed to provide a barrier free movement to its users.

Site & Proposed Design:

Site for the Construction of Mauritius Disciplined Forces Academy Building is conveniently accessed from the main road and it is nearby National Sports Complex at Cote D'Or. It is currently devoid of any large trees and is slightly contoured. The land is completely covered with bushes and vegetation. Mauritius Disciplined Forces Academy Building will be built on a plot of land of 30 acres (approx.) that has been earmarked for the project.

Location Description: The Republic of Mauritius is an island in the Indian Ocean and is located about 2,000 kilometers (1,200 mi) off the southeast coast of the African continent. The Republic of Mauritius also includes the islands of Rodrigues, Agalega and St. Brandon. The capital is Port Louis.

Mauritius is known for its beaches, lagoons and reefs. The mountainous interior includes Black River Gorges National Park, with rainforests, waterfalls, hiking trails and wildlife. Mauritius has 9 districts as follows :

- PORT LOUIS
- PAMPLEMOUSSES
- FLACQ
- GRAND PORT
- SAVANNE
- MOKA
- BLACK RIVER
- RIVIERE DU REMPART
- PLAINES WILHEMS.

Moka – The Site Location: The site is located in the Moka district. Moka is situated in the central plateau of the island. The district has an area of 234.4 km² and the population estimate was at 83,672 as of 01 July 2019.

It is administered by the Moka District Council. The elevation is around 203 meters and can be up to 425 meters (approx.) in some places. Moka is directly on the other side of the Moka Mountain Range from Port Louis. The village is close to the mountain Le Pouce and the town of Beau-Bassin and Rose-Hill.

The people of Mauritius are multiethnic, multicultural and multilingual. Mauritius is highly ranked for democracy and for economic and political freedom. The Human Development Index of Mauritius is one of the highest in Africa. Mauritius is ranked as the most competitive and one of the most developed economies in the African region.

The main pillars of the Mauritian economy are manufacturing, financial services, tourism, and information and communications technology. Mauritius is a welfare state; the government provides free universal health care, free education up to tertiary level and free public transport for students, senior citizens, and the disabled.

Project Vision and Objective:

It is governed by the Police Act 1974 and responsible for policing on mainland Mauritius, Rodrigues and other outer islands. It is headed by the Commissioner of Police and operates under the aegis of the Home Affairs Division of the Prime Minister's Office. The MPF is presently composed of about 12,500 Police officers posted Divisions and Branches which comprise, among others, an Anti-Drug and Smuggling Unit (ADSU), Passport and Immigration Office (PIO), paramilitary units- Special Mobile Force (SMF) and Special Support Unit (SSU,) an air wing -Police Helicopter Squadron (PHS) and Maritime Air Squadron (MAS) and a naval wing-National Coast Guard (NCG).

For an effective and sound management and functioning of the MPF and for a better delivery of service proper training of the police is very important. On joining the Police Force, new recruits undergo a foundation course of two years' duration during which they are exposed to Police duties, law and procedures, map reading, navigation, public order policing and weapon handling, amongst others. The programme also includes intensive physical training.

At the end of the foundation course, they have to complete two top-up modules of 120 hours at the University of Mauritius, leading to the award of a 'Certificate in Police Duties'. The new recruits benefit from a total amount of 5,330 hours of training in all. Once these Officers are posted to different units, they undergo on-the-job training. They also benefit from refresher courses workshops and seminars by the Police Training School with a view to keeping abreast of new legislations, procedures and other administrative and operational matters.

Right now, there are many training institutions in Mauritius but they are segregated across island so there is a need of one single consolidated campus so that a world class training facility can be provided to the police force and can train them to provide a quality service with pride and care and meet the organizational vision.

Scope of Work:

➤ The building shall be designed with flexibility to support adaptability and change. State land of a size of 30 acres at Cote D'or, Mauritius, has been made available to the Mauritius Police Force for the construction of Mauritius Disciplined Forces Academy at Cote D'or, Mauritius.
